OBJECTIVE

Motivated Robotics and Automation engineering undergraduate with hands-on exposure to industrial machinery, procurement operations, and embedded systems development. Seeking an internship opportunity to apply strong technical foundations in automation, robotics, and computer vision toward delivering practical, results-driven engineering solutions.

EDUCATION

Madras Institute of Technology

2024 - 2028

B.E. Robotics and Automation | CGPA: 8.99/10 (Up to III Semester)

Bannari Amman Vidya Niketan

Higher Secondary Certificate (HSC) | 582/600 (97%)

EXPERIENCE

Kasthuri Automation

26.11.2025 - 06.12.2025

Student Intern

- Performed electrical wiring and assembly on industrial machine tools, including a profile grinding machine, lathe, and surface grinding machine, building hands-on proficiency in electromechanical systems.

Messer Cutting Systems India Pvt. Ltd.

08.06.2026 - 19.06.2026

Student Intern, Procurement Team

- Supported procurement operations for the team, developing working knowledge of supply chain management and industrial metal cutting processes, including oxy-fuel, plasma, and laser cutting.

SKILLS

- SolidWorks: Part modelling and basic assemblies
- Python programming (basics)
- OpenCV (Computer Vision)
- KiCad (PCB Design)

PROJECTS

Automated Guided Vehicle (Forklift)

- Engineered an AGV prototype capable of obstacle avoidance and autonomous navigation.

Self-Balancing Robot

- Designed and implemented a self-balancing robot leveraging PID control for real-time stability.

Obstacle Avoiding Robot

- Built an autonomous robot that detects and avoids obstacles in real time using ultrasonic sensors.

ACHIEVEMENTS & AWARDS

- Finalist - Pragyan Ingenium'26 Hardware Hackathon, held at National Institute of Technology, Trichy.
- NPTEL Certified - The Joy of Computing Using Python.

ACTIVITIES

- Joint Secretary, MIT Quill.
- Member, Youth Red Cross - MIT Campus.
- Literature Head, MIT Quill.
